Betreff: EP visit to Côte d'Or Factory in Halle on 28.01.2010

Dear Members of Parliament,

The up-coming labelling regulation will have a huge impact on the food sector throughout Europe. May I therefore invite you to visit of our chocolate factory located in Halle to show you the impact which the proposed legislation is likely to have on our business. We want to focus on the following subjects: nutrition labelling, legibility, and country of origin labelling

Located in Halle, about 15km South of Brussels, our chocolate plant specialises in the production of premium tablets and bars for brands like Côte d'Or, Milka, Freia and Marabou. The Halle plant employs about 400 people and 87% of the production goes to European countries.

The visit would take half a day with transfer from Brussels and back. I propose Thursday 28 January in the course of the morning. Parliamentary assistants are most welcome to accompany their members or to replace them.

Please let me know at your earliest convenience whether or not you will be able to attend. Let me also use this opportunity to wish you Happy Holidays and all the best for New Year!

Sincerely

Franz Kraus
